TechQuitoes profile

The screenshot shows the GitHub profile page for the user 'TechQuitoes'. The top navigation bar includes links for 'Add Banner GitHub Org' and a '+' button. The main header displays the user's name 'TechQuitoes' and a profile picture. A yellow banner at the top of the page informs users about the requirement for two-factor authentication. Below the banner, the user's bio reads: 'TechQuitoes Technologies Transforming Ideas into Intelligent Digital Realities'. The bio is preceded by a rocket ship emoji. The page also features sections for 'Core Expertise' and 'Our Service Ecosystem', each with a list of bullet points. At the bottom, there is a 'Featured Impact' section with a link to the profile banner image.

⚠️ GitHub users are [now required](#) to enable two-factor authentication as an additional security measure. Your activity on GitHub includes you in this requirement. You will need to enable 2FA to continue using GitHub.

About Us section

Who We Are

Techquitoes is a startup-focused digital solutions company specializing in **Data Analytics** and **Business Process Automation**, helping businesses transform data into actionable insights and automate operations for better efficiency and smarter decision-making.

Alongside analytics and automation, we deliver **cost-effective web and mobile app development services** to clients worldwide, supporting startups, SMEs, and fast-growing businesses.

We operate as a **borderless, remote-first team**, collaborating with skilled professionals across regions. This model enables our clients to reduce costs, scale faster, and access specialized talent without compromising quality or communication.

Our approach is driven by **clear requirements, transparent workflows, and consistent delivery**. We focus on building long-term partnerships and achieving measurable outcomes, making Techquitoes a trusted remote partner on platforms like **Upwork** and **Clutch**.

❖ Our Services

-  Data Analytics & Visualization
-  Web Application Development
-  Mobile App Development
-  AI & Workflow Automation

Our Expertise

Our Expertise

We design, build, and maintain high-performance websites tailored for startups and growing businesses.

-  Custom Websites
-  Corporate Websites
-  E-commerce Stores
-  Web Portals
-  Landing Pages
-  UI/UX Design
-  Website Redesigns
-  Website Maintenance

Our focus is on **performance, usability, scalability, and clean design** to ensure your digital presence delivers real business value.
